ROBERT MURPHY

💼 PROFILE

I am a professional full-stack developer(web and mobile) with 7+ years of working experience.

I enjoy the diversity and challenges that I meet every project. It keeps me into learning new things that I like most in this profession.

I am the kind of person who wants to dig deep into your goal/need/problems and get you the solution in a timely manner with the highest standards. My clients say I'm quite fast at understanding their needs. Here are some technologies I have working experience.

* FrontEnd: React,Vue, JavaScript, ES6, jQuery, HTML5, CSS, Sass, PSD to HTML, etc..

* UI Framework: Bootstrap, Material Design ,AntD.

* Backend: NodeJS, Express, PHP, Laravel, RESTfull API.

* Database: MongoDB, MySQL.

I love my work and always try to follow the best practices. I can assure you maximum availability and error-free semantic code.

So let's get started :)

Thank you
